Kanini Software Solution, Chennai
- Salesforce Developer** 04/2022 - 06/2022  
Salesforce Developer Virtual Internship by **AICTE**

## PROJECTS

---

- Make Your Trip - Travel Agency Website** [Project link](#)
- Developed and launched Make Your Trip, revolutionizing the travel industry with a React-based platform that enabled seamless tour discovery, booking, and administration for travelers, agents, and admins.
  - Users explore and book tours. Agents create plans, awaiting admin approval. Admins manage user access and plan authenticity.
  - Travelers access detailed tour info and book with ease. A PDF confirmation enhances the booking experience.
- Our Hospital React Website** [Project Link](#)
- Spearheaded the development of a highly secure React website for 'Our Hospital', enabling patients to schedule appointments, doctors to approve them, and admins to manage user accounts. Streamlined the process, resulting in improved efficiency and enhanced user experience.
  - User-friendly components include Signup, login, doctor profiles, patient services, and admin controls.
  - Implement secure token-based authentication in C. Upon successful login, users receive tokens that grant access to specific features based on their roles.
  - Elevate the healthcare experience with intuitive user roles and secure authentication.
